MISSISSIPPI NURSERIES

LEGETT BROS.

JACKSON — MISSISSIPPI — GULFPORT

USE OUR LANDSCAPE SERVICE

A well prepared planting plan for your grounds is as important as a plan of the building. Think of a house built without a plan. Grounds where plants are set according to a well prepared planting plan are pleasing, beautiful and profitable.

We offer you the very best of landscape service under the supervision of college trained and experienced men.

HOW TO REACH OUR NURSERIES

The Jackson branch is located three miles south on highway No. 49. Phone 26-W.

The Gulfport branch is located north. Three and one-half miles north on highway No. 49, follow arrow signs northeast to nursery. Phone 1917-J.

TERMS AND CONDITIONS

FREE DELIVERY: All orders for \$15.00 and up will be delivered free of charge if you live within five miles of Jackson or Gulfport.

SHIPPING FACILITIES: Having nurseries located at Gulfport and Jackson we can make quick deliveries, with low express and freight charges.

SHIPPING DIRECTIONS: Please furnish us with correct shipping instructions so as to prevent delay and dissatisfaction. All goods travel at purchaser's risk and expense. In case of damage to stock in transit, notify the delivering agents immediately. Have them make a note of the damage on your bill or express receipt for your protection.

TERMS: To insure safety and prompt acceptance, remittance should be made by Bank Draft, Check, Express or Post Office Money Order or through Registered Letter.

CONIFEROUS EVERGREENS

The conifer family includes all the cone bearing plants, such as the arborvitae, junipers, pines and cypress, most of which are dwarf in growth, as compared with their parent plant.

There is no other plant which is so important as the conifers, because of their many shapes and colors. They can be used in almost any place, and when beauty is needed they are always rendering it. They are the nucleus of any planting.

All conifer prices are for plants baled and burlapped.

Himalayan Cedar (*Cedrus Deodara*) resembles the spruces, foliage grayish green, makes a beautiful specimen plant.

15-18 inch, B&B.....	Each \$ 1.25

18-24 inch, B&B.....	1.50
----------------------	------

Elegantissima (*T. O. Elegantissima*) golden pyramidal, much similar to the above.

18-24 inch, B&B.....	1.75
----------------------	------

BROAD LEAF EVERGREENS

The South's Gift

They are distinguished by their flat leaves, many of them being glossy, smooth, and pubescent in leaf texture. They have many forms from pyramidal, round, to spreading in their branching habits.

They may be used for base planting, in groups as specimens, many of the varieties for screening and hedges. However, some varieties may be used in window boxes, urns, and border planting.

Many of the varieties render blooms which make them very serviceable and beautiful. They thrive in many varieties of soil and under various climatic conditions, a well drained moist soil being best suited.

When grace and beauty is needed, plant them. Their appearance always gives rest and comfort to any home. All Evergreens B&B.

Abelia (Abelia Grandiflora) foliage small glossy green in color, flowers magnolia shape, extremely popular plant.

	Each
15-18 inch.....	\$.45
